

Your Vox Wi-Fi Home Executive Journey

Trying to make the most of your Fibre speeds in an increasingly complex home Wi-Fi network, with multiple users and potentially hundreds of devices, deserves the easiest solution: allowing the experts to handle it all for you.

Say hello to Vox Wi-Fi Home Executive.

With this solution, we'll ensure your Wi-Fi network is working perfectly from the start and continues to work perfectly with 24/7 support.

 **Wi-Fi**

A premium Wi-Fi solution

The Fully Managed Service includes:

- The option to rent your equipment, which cuts down initial costs and ensures regular equipment updates and replacements can be made.
- A centralised controller, this enables Vox to manage and troubleshoot your Wi-Fi network to ensure you have the best Wi-Fi experience possible.
- Support licenses for your Wi-Fi devices, this gives you peace of mind that your Wi-Fi devices are covered by professionals.

Personal Engagement - we'll focus on your exact Wi-Fi requirements and keep you informed during every step of your Wi-Fi journey.

Detailed Assessments - you can trust our experienced team of experts to guide you towards the best choice of solution to meet your Wi-Fi needs.

Comprehensive Scoping - once we understand your requirements, we'll arrange for site surveys and radio frequency (RF) planning to ensure you get high-quality Wi-Fi coverage where you need it most.

Complex Network Design - our solution is specifically designed to meet complex Wi-Fi requirements and enable optimal performance from multiple connected devices. Including PCs, laptops, tablets, Wi-Fi security cameras, gaming consoles and high definition TVs.

Professional Installation - our installation teams will make sure every router, access point and cable run (where required) meets the highest standards.

Leading Brands - we've already selected the most innovative and trustworthy brands to guarantee a reliable, high-quality Wi-Fi experience from the start.

Fully Managed Service - this is our ultimate guarantee for worry-free Wi-Fi. We'll look after your Wi-Fi network for you, allowing you to focus on more important things like quality time with the family. Renting your equipment also allows you to cut down on initial set-up costs and ensure your Wi-Fi network remains ideal with regular equipment upgrades or replacements when needed.

Work From Home Ready - there's no time for downtime in a work from home environment. A properly planned and executed Wi-Fi solution is the absolute best way to make sure you never have to worry about a loss of productivity at home.

24/7 Support - our Wi-Fi solutions are backed by 24/7 support team to ensure you receive the help you need exactly when you need it.

Optional Extras:

Wi-Fi UPS - by adding our UPS solution, you can ensure your network will always stay on with an uninterruptable power supply.

Wi-Fi Cameras - choosing to add our Wi-Fi cameras will level up your security capabilities in an instant.
