

# Winning at Business

## Vox Fibre Broadband (Preferred)

Tailored to meet your needs, the Vox Fibre Broadband Bundles will be a welcome boost to your business – giving you the right mixture of uncapped data, voice and other value adds to give you the competitive edge. Designed to give you the best value for money, these broadband bundles award

you the economic and technological freedom to develop your network as your business grows. This way, you are in complete control of your ICT spend, in-turn managing the spiraling cost of communication.

### How Fibre Broadband increases productivity

Vox Fibre services are not only designed to fit your budget, but your quality needs as well, giving you access to connectivity solutions containing the services you require to effectively digitise your business. Here is how Vox Fibre can benefit you:

#### Cost effective

Your business can benefit from a solution that offers significant cost savings when you consolidate your voice, video and data over one connection.

#### Reliable

Considered 'future safe', Fibre has set the benchmark as the most reliable form of connectivity. Therefore, by joining our network, your business will experience less disconnects and downtime.

#### Fast

The concept of 'waiting for things to load' is a thing of the past. Fibre broadband is the fastest connection to the Internet, and has revolutionised the ways businesses communicate.

#### Versatile

Vox Fibre guarantees you better Quality of Service (QoS) for each application, without sacrificing service performance or quality which allows you to optimise voice and data by converging these services over your Fibre network.

#### Customisable and scalable

Our customised and scalable Fibre solutions are designed to fit your business needs and can scale with you as you grow.

### With Vox Fibre Broadband, we make sure you are winning all round

## Fair Use Policy

A fair use policy (FUP) will be implemented on standard uncapped bundles according to the soft cap limits. No other monthly restrictions will apply. Should utilisation reach a total of 50% of the fair use threshold, the line speed will be limited to 50% of the contracted line speed.

Should utilisation reach 100% of the fair use threshold, the line speed will be limited to 10% of the contracted line speed. **The FUP may be lifted by adding Fibre+ which removes the FUP instantaneously and will apply for the remainder of the contract term.**

BUNDLE LINE SPEED	FUP STEP 1 - 50% LINE SPEED		FUP STEP 2 - 10% LINE SPEED	
10Mbps	500GB	5Mbps	1 000GB	1Mbps
20Mbps	1 000GB	10Mbps	2 000GB	2Mbps
50Mbps	2 500GB	25Mbps	5 000GB	5Mbps
100Mbps	5 000GB	50Mbps	10 000GB	10Mbps
200Mbps	10 000GB	100Mbps	20 000GB	20Mbps
500Mbps	25 000GB	250Mbps	50 000GB	50Mbps
1 000Mbps	50 000GB	500Mbps	100 000GB	100Mbps

- Temporary wireless services are for a minimum of 3 months

## Our FTTB is Nationwide

Our teams are situated in strategically positioned locations across the country, supported by our extensive business partner footprint. Our telco network extends throughout South Africa, with complete redundancy internationally via submarine cables along the East and West coast of Africa.

Our Points of Presence (POPs) are established in the Teraco Data Centre environments locally as well as in multiple locations internationally. We are therefore well-positioned to keep our customers switched on at all times.

**The map below shows our ever-expanding local footprint.**
