- Available for download via Apple App Store and Google Play Store

Product overview

Vobi, from Vox, is a mobile softphone app giving users the ability to make and receive voice and video calls, including in app texting from their mobile phones using the Vox network.

Designed for both home users and businesses, Vobi allows you to benefit from reduced call rates on video and voice calls across all networks including international destinations. Vobi enables you to route your home phone and/or office phone calls to your mobile phone, ensuring you are always available no matter where you are**.

Save on your telephone bill by porting your existing number to Vox or get a new number from us and use Vobi to make and receive all your audio and video calls.

Vobi enables call recording, conference calls, call transfers*, fully integrates with your address book and supports your Bluetooth headset. Vobi is available for free download through the Google Play Store and Apple App Store.

With Vobi from Vox you turn your mobile phone into your home/office phone in an instant.

Download Vox Vobi from the App Store or Google Play and enjoy **reduced call rates along with free text messaging and video** – all within the same app!

No contract lock-ins
No bill shock
Port your number to the Vox Network or get your very own **new** number from us
